

**HAWKINS**  
*Electric Service, Inc.*

# Hawkins. Since 1918.

The trusted source for all of your electric services needs

MARYLAND • WASHINGTON, D.C. • VIRGINIA • DELAWARE

## Since 1918

Ever since Jay C “Pop” Hawkins rode his bicycle through his Hyattsville neighborhood performing electric repairs for his neighbors in 1918, Hawkins has served every client as if they were a neighbor. We credit our reputation for outstanding service, as well as our many repeat customers, for helping us grow into one of the most respected electrical companies in the region.

Today, Hawkins is a state-of-the-art electrical contractor that provides electrical construction, maintenance, and service capabilities for commercial, multi-family and residential customers across the mid-Atlantic. We invest in advanced training and technology, a modern fleet of fully stocked work vehicles, and heavy equipment for any job. There is no electrical job we cannot handle, and we guarantee everything we do 100%.

### Services

## Capabilities Statement

Hawkins Electric has bonding of 20M with a 5M per job limit and the ability to go above 5M on a project to project basis. Hawkins Electric has a great relationship with its bank, as we have been a customer of the same bank through bank mergers and bank acquisitions since 1953. We take safety very seriously. We have a safety committee made up of field technicians, project managers and managers. We participate in the ABC Step awards, Safety Week, IEC (Independent Electrical Contractors) Safety Fest and Spark awards program. Hawkins Electric has been awarded safety awards from both the IEC and ABC for 10 consecutive years. Our MOD rating for 2016 is .75%.

### AWARDS

- ABC Sub-contractor of the year (2013 and 2014)
- IEC National Award of Excellence - Electrical Construction (2016)
- IEC National Award of Excellence - Service (2016)
- Property Management Association Vendor of the Year Award (2015)
